

BALTIMORE & OHIO RESORTS AND SPRINGS

DEER PARK HOTEL, MARYLAND.

This famous resort, known the country over for a great many years, is located on a broad plateau two thousand five hundred feet above the level of the sea. The plateau, which is comparatively level for a distance of nearly nine miles, is covered with beautiful forests, properly named "The Glades." In the midst of this beautiful forest, surmounting the summit of these mountains, is located the most beautiful mountain resort in America.

The hotel, with its large cheerful rooms and immense verandas, is situated on a knoll with beautiful lawns sloping some three hundred to four hundred yards distant, and on the edge of a dense forest overlooking the plateau through which the Baltimore & Ohio Railroad mounts the Allegheny summit, affording a beautiful panoramic view of many miles of the surrounding country. In connection with the hotel,

and under its supervision, are located ten beautiful cottages of various sizes, scattered promiscuously through the forest, connected by foot paths and drives, fully equipped for housekeeping, supplies being obtainable at the hotel commissary. Guests renting cottages for the season can also make arrangements for meals at the hotel. The hotel is equipped with all modern conveniences and, notwithstanding its isolated position in the mountains, there is located in the hotel, telegraph, long distance telephone as well as local and room telephones, also telephone system in all of the cottages, bulletins of important current events are also posted, and the newspapers from the most important cities are received daily. No better climatic conditions prevail than at Deer Park Hotel, the nights without exception being cool, and the thermometer rarely registering above 80° Fahrenheit during the day.

The most modern amusements are provided for, such as music, dancing, golf, tennis, swimming, bowling, pool and billiards.

The automobile roads throughout the country are excellent, and many beautiful and interesting rides are to be obtained. A fireproof garage is operated in connection with the hotel on the premises, and supplies are obtainable for automobiles. There are two sixty feet by thirty feet swimming pools, one for the exclusive use of ladies and children, the other for gentlemen, and these swimming pools are filled with the famous Deer Park water, from the Boiling Spring in the mountains, the temperature being regulated by a complete and efficient system of heating. The swimming pools, as well as the billiard room and bowling alleys, are connected to the hotel by an enclosed concourse. A competent swimming instructor is in attendance at all times to assist and give instructions in swimming.

In one of the buildings is located a beautiful ballroom, where a dancing programme is given evenings for guests, and afternoons for children. In addition, instructions are given in the most modern dances. Moving pictures are also displayed here at frequent intervals.

Weather permitting, the spacious verandas are decorated and illuminated during the evening, and the dancing programme is carried out on these verandas.

A beautiful nine hole golf course has been added to the former excellent nine hole course, making a complete eighteen hole course, with drives ranging from 125 yards to 550 yards, with bunkers, hazards and traps, the entire course located on the slope of the mountain, in charge of a competent instructor. The location and climatic conditions make this golf course one of the most ideal to be obtained, and is for the exclusive use of the hotel patronage. The putting clock is a favorite pastime among the guests for putting contests.

The tennis courts are located in front of the hotel verandas and are shaded by beautiful mountain foliage and kept in excellent condition, so that they are fast at all times.

The cuisine of Deer Park Hotel is second to none, and in this essential department of the hotel organization most careful attention is devoted. The excellent railroad facilities, as well as surrounding truck gardens, make it possible to obtain the delicacies of the season, and no expense is spared to keep the service at the highest possible standard. The army of employees attached to the hotel management are thoroughly drilled in every department of the organization, so that the patrons of the hotel are given detailed attention, thereby creating a standard of service unexcelled.

The modern new electric lighting plant, recently installed on the premises, procures for this hotel the latest and most up-to-date illuminating effects.

The most delicious crystal-clear water flows in superabundance from the famous mountain spring nearby known as the "Boiling Spring," which bubbles from the rocky heart of the mountains. It has a daily flow of 150,000 gallons of the purest water, from which every department of the hotel is supplied.

Deer Park Spring Water as a table water has no equal, and is highly recommended by leading physicians as by an analysis, which is absolutely pure. The spring is about two miles from the hotel, and is enclosed in a house, securely fastened and locked, so as to prevent any impurities falling therein.

ANALYSIS.

| | |
|---|--------|
| Total solids, per gallon..... | 5.13 |
| Chlorine, per gallon..... | 0.11 |
| Free Ammonia, parts per 100,000..... | .022 |
| Albumenoid, Ammonia, parts per 100,000..... | Trace. |
| Nitrates..... | 0 |

Deer Park is favored with most excellent transportation facilities, the lack of which is so often a detriment to a summer resort. Situated on the main line of the Baltimore & Ohio Railroad, it is only eleven hours from Cincinnati or New York; nine hours from Philadelphia; five and one-quarter hours from Baltimore; five and one-quarter hours from Washington; seven hours from Pittsburgh; thirteen hours from Columbus; twenty-one hours from Chicago; twenty hours from St. Louis and twelve hours from Cleveland. The dining car service is excellent, and very few summer resorts enjoy the privilege of through train and Pullman car service from so many principal cities as does Deer Park.
